#### Jump Stop, Pivot, and Pass Drill

- Place players in 10 or more single file lines on the sideline
- The first line starts with the ball in triple threat position
- Blow the whistle and the first line of players dribble with right hand to middle of court and jump stop into triple threat position
- Players make a right foot front pivot so they are facing back where they started
- Then they make a chest pass to the next person in the line
- Then follow their pass and jog back to the end of the line
- The next player in line repeats this.
- After each player has attempted a right front pivot have them make a left front pivot, right reverse pivot and left reverse pivot.
- After each player has attempted a chest pass have them make a bounce pass and an overhead pass.

#### JUMP STOP
